

FREE WATER IN NEYLAND STADIUM

The only thing we want Vols to be thirsty for on gameday in Neyland is a win! We are very excited to announce that we are bringing free water to Neyland stadium in form of three water coolers. These water coolers are located in three different sections:

- Level 1: Section Y8
- Level 1: Section C/D
- Level 2: Section E/F

Each of these coolers contain 125 gallons of water and will have dispensable cups mounted on the walls nearby for student use. Recycling bins will be placed near each cooler so that cups may be disposed of properly, and in support of UT Recycling's Zero Waste Initiative. Students are also encouraged to bring their own empty, clear water bottles which can also be filled at these coolers.

Bringing free water to Neyland Stadium was an initiative started by our previous UTK Student Government Association (SGA) administration, so we wanted to make sure to see it through. Our entire SGA executive team has worked hard on finalizing the details on this initiative throughout the summer and the past few weeks. We are extremely thankful to the Division of Student Life & the University of Tennessee Athletics Department for helping make this initiative a reality!

Go Vols!

- SGA Executive Team
